APX CLASSICS NOW ON SALE!!!!

As low as... **\$4.00** each with purchase of
10 or more titles**\$7.99** each if order is for
less than 10 titles

These are the original classic programs that were created for the Atari Program Exchange (APX). All are new and come with complete documentation. Supplies are very limited on some titles, so we suggest that when you order, you select a few "alternate" titles just in case some are out of stock. Some titles require public domain program PPD026 FIXXL to run on XL/XE computers.

SAVE \$\$\$ by ordering 10 or more!!!

DAISY WHEEL PRINTER

ATARI XDM121 PRINTER FOR YOUR ATARI 800/XL/XE

The Atari XDM121 daisy wheel printer is the perfect companion for your 800/XL/XE Computer. NO INTERFACE REQUIRED! The daisy wheel rotates to print fully formed characters - just like those you'd get from a high-quality office typewriter. It's the ideal printer for word processing applications that require legibility and style. Sophisticated features such as bold face printing, underlining, subscripts, superscripts and international character set will greatly enhance your written work. The bidirectional, logic seeking printing methods eliminates wasteful mechanical movement, thereby allowing greater printing speed. The printer offers an array of tabbing controls and page-length options and can store these format commands in its memory. Its control panel includes three built-in functions, yet it remains uncomplicated and is a snap to use.

\$49.95 HDA050 (Plus \$12 shipping in U.S.)

SPECIAL: PRINTER AND SHEET FEEDER \$75.00 PKG005 (Plus \$18 shipping in U.S.)

XDM121 PRINTER SHEET FEEDER

The SHEET FEEDER attaches easily to your ATARI XDM121 Printer. It has a capacity of 200 sheets of standard typing paper and a variable width paper receiving tray. Multiple documents are automatically collated in the order printed. A manual feed slot allows you to insert single sheets by hand without removing the feeder from the printer. Works great with Atariwriter wordprocessing program.
(not guaranteed to work with all word processors)

\$49.95 ACA081

XDM121 PRINTER TRACTOR FEED

With the TRACTOR FEED, you can use standard continuous form paper with your ATARI XDM121 Printer. No more having to insert one sheet at a time. The adjustable tractor guides will allow you to use the many varieties of forms including name and address labels. Easy to install - simply snaps on to the platen rod. Get the most out of your printer today!!

ATARI 800/XL/XE BOOKS

YOUR ATARI COMPUTER

by Lon Poole

Here's an invaluable all-in-one guide for Atari 400/800/XL/XE computer users. The author provides complete operating instructions and troubleshooting tips on hardware, peripherals, and compatible software. Plus there are two chapters devoted solely to the superb Atari computer graphics capabilities.

For beginning programmers there are tutorials in Atari BASIC, plus instructions for use of color graphics and sound. For more experienced programmers, there is a comprehensive reference of BASIC statements and functions. Everything you need to unlock the full power of your Atari computer!

DE RE ATARI

(All About Atari)

This book tells you everything you wanted to know about the Atari 400/800 computers. An excellent resource and training text for professional programmers and advanced hobbyist who understand Atari BASIC and assembly language.

Topics include player-missile graphics, display list interrupts, scrolling, sound, the operating system, Atari Basic and CTIA.

BKA036 \$5.00

MASTER MEMORY MAP

At last!! An easy-to-read book that shows you the technical tricks to get the most out of your computer. The Master Memory Map is a clearly written friendly guide to the inner workings of the Atari computer. Full of useful explanations and examples, this book is a guided tour of all the memory locations - places inside the computer that make it act in special ways. You'll learn lots of uses for the Atari including how to make music; even how to create special characters used in games. A must for both the beginner and advanced programmers.

BKA014 \$10.00

COMPUTER PLAYGROUND

Computer Playground is a collection of BASIC computer activities for children in grades 2 through 6. Each activity is presented as a "problem" that children will find interesting, fun, and geared to their level of understanding.

As the child progresses, he will learn how to use BASIC commands such as PRINT, GOTO, INPUT, FOR ... NEXT, IF ... THEN, POKE and PEEK. This book is illustrated with over 70 color cartoons and pictures to color. It's BASIC programming playtime!

BKA012 \$9.95

* THE MUSICAL ATARI *

The Musical Atari is an introduction to both music and computing. Written for the beginner, it includes simple BASIC programs that allow you to play harmonies, melodies and rounds, converting your computer into a player piano or chord organ at the touch of a key.

The programs, music theory and notation are clearly explained allowing non-musicians to play music written for piano, voice, or guitar. A special chapter on sound effects includes short sound programs that can be incorporated into your own games.

BKA011 \$7.95

GAMES FOR THE ATARI

This book comes packed with type-in games for the Atari, including Robot Attack, Barrier, Ball, Gunfight, Knight Battle and more!

You'll learn movements in BASIC, Movements in Machine Language, Movements of Missiles, Overlapping Detection, Sound features and programming the joystick.

Programming hints and tricks are included as well as a disk containing many of the type-in programs!

BKA061 \$7.95

***** 101 PROGRAMMING TIPS AND TRICKS *****

Here's a giant collection of practical, useful, efficient programming techniques and operating shortcuts right out of a master programmer's notebook! Loaded with hints, secrets, tips, tricks, and easy-to-follow instructions, this book shows you how to handle routine programming chores more quickly, do special effects, make your computer work for you - faster and more efficiently.

Each of the tips in this book features a ready-to-run program. Each will run immediately, as you find it in this book, or it easily can be included in a larger set of instructions to your computer.

Learn insider's how-to secrets for using the BASIC commands READ, DATA, RESTORE, INPUT, LEN, GOSUB, RETURN, CHR\$, DIM, SET, COLOR, and many more.

You'll find special techniques for graphics, colorful program titles, dice throw, bell ringer, memory tester, random numbers, etc. You'll learn what to do, how to do it, when to make changes and when not to, all from this info-packed programmer's handbook of tips and tricks.

KIDS AND THE ATARI

(for grown-ups too!)

This book starts with a bare bones introduction to BASIC programming, leading quickly to the point where interesting programs can be written.

The central part of the book emphasizes more advanced and powerful commands, while the final part deals with broader aspects of the art of programming such as editing and debugging.

There are 33 chapters to aid you in becoming a proficient BASIC programmer! (These books are new, but most have a missing or damaged front cover).

MIDI MUSIC

SC1224 COLOR MONITOR

and...

BAND-IN-A-BOX MUSIC SOFTWARE

Just type in the chord names for any song, using standard chord symbols (like C Fm or C7b9), choose the style you'd like and **BAND-IN-A-BOX**

does the rest!!

Requires a MIDI keyboard/module with bass, drum, and piano sounds.

PKG015

- CPU: Motorola 68000 running at 8 MHz.
- RAM: 520K, 1040K upgradable to 4 meg.
- ROM: 256k - supports 128K external ROM cartridge.
- Accepts external GENLOCK
- Graphics Coprocessor chip (Blitter)
- Standard QWERTY keyboard format.
- Separate numeric and cursor keypads.
- 2-button mouse
- TOS⁺ operating system entirely in ROM.
- Hierarchical file system with subdirectories and pathnames.
- Interface includes icons multi-windowing, window resizing, repositioning, and pull-down menus.

- GEM virtual device interface.
- Desk accessories: VT-52 terminal emulation; Control Panel; RS232 port and Install Printer configuration control.
- Audio out: 2 x RCA jacks for left and right channels.
- Connector for color or monochrome monitor.
- Parallel Printer Port (8-bit parallel).
- External floppy disk drive port.
- External DMA port for hard disk, CD-ROM, and laser printer
- Mouse/joystick ports
- Cartridge port (128K capacity).
- Built-in RF modulator for connection to TV and VCR.

- Built-in power supply
- Includes graphics coprocessor.
- High resolution: 640x400 monochrome.
- Medium resolution: 640 x 200 4 colors.
- Low resolution: 320 x 200 16 colors.
- Color palette: 4096 colors
- Text display: 80 columns
- 3 programmable sound channels.
- Includes Musical Instrument Digital Interface (MIDI) for connection to music synthesizers, sequencers, drum boxes, and other devices with MIDI interfaces.
- 3.5 inch, double sided, 720K.
